PROJECTS

DevGaurav – Personal Portfolio (Check it live) (Source Code)

Tech Stack: React.js, Tailwind CSS, Email JS

- Developed a fully responsive portfolio supporting mobile, tablet, and desktop devices
- Showcased projects, technical skills, and education with a clean and interactive UI
- Implemented contact functionality for user engagement

Talent IQ – Remote Interview platform (Check it live) (Source Code)

Tech Stack: React.js, Express.js, MongoDB, Inngest, Stream

- Built a real-time remote interview platform with 1-on-1 video and chat functionality
- Integrated multi-language coding environment supporting 3 programming languages
- Implemented role-based authentication and authorization for secure user access
- Designed scalable backend APIs for handling real-time communication

Sangeet – Music App with Real-Time Chat (Check it live) (Source Code)

Tech Stack: React.js, Express.js, Socket.io

- Developed a music streaming application with real-time chat functionality
- Implemented WebSocket-based communication using Socket.io for instant messaging
- Built admin dashboard for managing songs and albums
- Designed responsive and user-friendly UI for enhanced user experience

---

ACHIEVEMENTS

- Solved 69+ Data Structures and Algorithms problems on LeetCode
- Strong problem-solving skills with focus on optimized and scalable solutions

LEADERSHIP/EXTRACURRICULAR

- Student Training & Placement Coordinator – Facilitated student career training and placement activities
- Member, GDSC DITU – Organized and participated in technical workshops and seminars
